11 Times Table Trick!

Just repeat the other factor for the product

6 x 11 = 66

7 x 11 = 77

The helpful bit…

If 5 x 11=55 and
10 x 11=110

- **10 x 11 = 110** *a safe place to be*
- **9 x 11 = 99** ***you can move down 11 from 110 to get here***
- **8 x 11 = 88** ***memorize this one***
- **7 x 11 = 77** ***climb up +22 from 55 to get here***
- **6 x 11 = 66** ***climb up +11 from 55 to get here***
- **5 x 11 = 55** **(START HERE)**
