Total	£9,495

Outcomes

Overall -

- Retained Silver Sports Mark Award
- Area champions in 12 different Level 2 competitions.
- County champions in Y5/6 hockey and Y3/4 Quad Kids
- Spirit of the Games winners for Y5/6 quad kids at School Games (County Championships)

- Due to the employment of a Sports Apprentice, more children accessed sporting competitions and lunchtime/after school opportunities.
- Children in many year groups access 2 hours of high quality PE lessons
- ALL children have access to 2 hours of PE and Sports provision.
- Children at Willesley enjoy PE and have a positive attitude to it and keeping themselves healthy.

School Sports Partnership (SSP)

By being members of the SSP, we had access to a number of competitions and festivals across the year and across the curriculum. This has included activities for children with disabilities as part of an inclusive agenda. Younger children had sporting opportunities both within and outside of school through sports festivals. All children had the opportunity to compete in cross country and many of these pupils went on to represent the area. Foundation Stage boys were area champions.

Through the SSP membership, we gained access to reduced cost CPD for our NQTs.

Sports Ambassadors were trained by the Youth Sports Trust and implemented these skills into a number of lunchtime activities with younger children.

Staff training and coaching

CPD was provided to NQTs in gymnastics which is traditionally an area which is not covered as part of teacher training. The staff are implementing their ideas and have shared them with other team members.

Cricket coaching was provided to all teaching staff and everyone has implemented one or more of the activities into their teaching. As part of the package, we gained access to coaching for the Y5 and Y6 classes which provided teachers with further ongoing CPD. An exclusive girl's cricket club was provided which allowed a number of girls who hadn't got involved in sports previously to experience a sport in a non-intrusive environment. Two teams were entered into the Level 2 competition with one team winning as a result of the coaching. The boy's team also won thanks to the high quality PE lessons provided.

Apprentice

Through the use of an apprentice, more children were able to access extra-curricular sporting activities across the school. More teams were entered into competitions and more time was dedicated to providing specific training for each sporting activity. PE lessons were delivered more effectively as equipment was organised before the start of the lesson. In sports where the apprentice was skilled, teachers were able to learn and upskill.

Transport

By providing transport to Level 3 sporting events and the Saffron Lane Area Athletics Championships, we were able to allow a number of children to experience higher level sporting activities. Over 50 children attended the School Games with 2 teams becoming county champions. 40 children gained experience at an athletics track as part of the Saffron Lane event with many medal winners returning jubilant. By providing the transport we created a strong team environment.

Activ8

To continue to encourage a healthy lifestyle outside of the school, the school subscribes to the local fitness initiative Activ8 ran by the district council. The scheme enables the children to accumulate points through participation in school sporting events, which they can then 'spend' on activities at the local leisure centres, such as swimming and badminton.
